

ZI HAO (JARY) CHEN

Toronto, ON | (647)-996-5587 | jary.chen@torontomu.ca | [GitHub URL](#) | [LinkedIn](#)

SKILLS

Languages: Python, Java, SQL, HTML, Haskell, Bash, CSS, C, and C++.

Technical: Microsoft Excel, Tableau, Jupyter Notebooks, Linux, IBM Cognos Analytics, object oriented programming, and control structure.

Areas of Interest: Web development, artificial intelligence, and data analysis/science.

EDUCATION

Bachelors of Science (BSc) - Computer Science Co-op

Sept 2024 - Present

Toronto Metropolitan University - Toronto, ON

Relevant coursework: Data structures, operating systems, software engineering, and introduction to UNIX, C, and C++.

PERSONAL AND ACADEMIC PROJECTS

Soccer Game With 2D Graphics | Java

Mar 2025 - Apr 2025

- Built an interactive 2D soccer game using Java Swing and event-driven programming.
- Designed modular classes and interfaces to enhance code scalability and maintainability.
- Used object-oriented fundamentals to properly organize responsibilities of numerous classes for **clarity** and **organization**.
- Designed user interface with **labels** and **buttons** to control the flow of user input and window transitions.

Banking Simulation | Java

Feb 2025 - Mar 2025

- Used **OOP** principles to develop banking simulation in Java using polymorphism, interfaces and inheritance.
- Created intuitive banking tools such as paying bills, withdrawing, and depositing currency.
- Gained experience building stable and maintainable systems aligned with **SDLC** processes.

CERTIFICATES

IBM Data Analyst Professional Certificate | IBM

Expected Jun 2026

- Developed proficiency in **Python**, **SQL**, and **Excel** for data manipulation, analysis, and visualization using tools such as Pandas, NumPy, and Jupyter Notebooks
- Constructed data visualization techniques using **IBM Cognos Analytics**, Matplotlib, Seaborn, and Plotly.
- Gained hands-on experience with generative AI tools for data preparation and analysis, including prompt engineering and responsible AI practices.

EXPERIENCE

Barista

Jul 2025 - Present

CoCo Fresh Tea and Juice - Toronto, ON

- Prepared milk tea beverages while ensuring speed, consistency, quality and precision.
- Delivered **customer service** by **communicating** to customers, processing their order and resolve any issues that come up.
- Maintained an **organized** and clean work area, developing **responsibility** and **attention to detail**.
- Coordinated with team members to handle busy rush hours, enhancing **teamwork** and **time management** skills.
